

SOFTWARE CHANGE NOTICE

Software: SoftwareX
Version: 1.3
Release Date: June 15, 2023
Previous Version: 1.2

NEW FEATURES

1. Real-time Collaboration: Added multi-user editing capabilities.
2. Custom Dashboard Builder: New drag-and-drop dashboard customization.
3. Enhanced Analytics: Improved data visualization with interactive charts.
4. Mobile Application: Released companion mobile app for iOS and Android.
5. Automated Workflow Engine: Added customizable workflow automation tools.

RESOLVED ISSUES

1. Fixed PDF exports formatting issues with complex tables.
2. Improved dashboard widget loading performance on low-bandwidth connections.
3. Automated reconnection for third-party integrations after updates.
4. Optimized database queries for large datasets exceeding 1 million records.
5. Corrected calculation errors in the forecasting module.

KNOWN ISSUES

1. Occasional disconnections in real-time collaboration with more than 20 users.
2. Mobile app may experience battery drain on older devices.
3. Some custom dashboard widgets require manual refresh after data updates.
4. Limited offline functionality in the mobile application.

SYSTEM REQUIREMENTS

- Operating System: Windows 10+, macOS 11+, or Linux (kernel 5.4+)
- RAM: Minimum 8GB, Recommended 16GB
- Storage: 750MB free space
- Dependencies: .NET Runtime 6.0 or higher

INSTALLATION INSTRUCTIONS

=====

1. Backup your existing configuration.
2. Download the update package from the customer portal.
3. Run the installer and follow the on-screen instructions.
4. Restart the application after installation.

For detailed instructions, please refer to the Documentation Portal.
